

CSODIMM · 32GB

Professional

Memory Module

The Centon Professional DDR5 CSODIMM is built to a controlled specification for system integrators, builders, and volume buyers. Centon sources qualified components from multiple suppliers and builds each module to one JEDEC-standard specification, delivering dependable, lifecycle-stable memory for newer laptops and mini PCs at a commercial-grade price. Higher speeds and bandwidth than DDR4, with lower power use.

FEATURES

01 JEDEC STANDARD

Built to the JEDEC industry standard, the specification memory makers and system builders design around.

02 CONTROLLED SPECIFICATION

Built to a single Centon specification, using qualified components from multiple suppliers.

03 LIFECYCLE STABLE

Dependable supply for system integrators and builders, at a commercial-grade price.

ABOUT THE PROFESSIONAL SERIES

The Centon Professional Series is built around a controlled specification rather than a fixed bill of materials. This lets us source top-quality components from multiple suppliers to meet your spec at the best possible price, without compromising quality. For system integrators and builders, it delivers dependable, lifecycle-stable products that balance performance, availability, and cost. JEDEC standard designs, reliable for everyday commercial workloads without paying for industrial/automotive grade you don't need.
