

USB 2.0 · TYPE-A · 2GB-128GB

Professional USB 2.0 Pro TAA

USB Flash Drive

The Centon Professional Pro TAA is built to a controlled specification for government agencies, contractors, and public-sector buyers who require verified TAA compliance. Manufactured in accordance with the Trade Agreements Act, it meets sourcing requirements for GSA Schedule and other federal procurement contracts. Centon sources qualified components from multiple suppliers and builds each drive to one specification, delivering dependable, lifecycle-stable storage. Its rugged aluminum housing and metal cap — which snaps securely onto the back of the drive — protect the USB connector when not in use, while the built-in keychain loop keeps it within reach. Plug-and-play on both PC and Mac, and backed by Centon's manufacturer warranty.

ABOUT THE PROFESSIONAL SERIES

The Centon Professional Series is built around a controlled specification rather than a fixed bill of materials. This lets us source top-quality components from multiple suppliers to meet your spec at the best possible price, without compromising quality. For system integrators and builders, it delivers dependable, lifecycle-stable products that balance performance, availability, and cost. JEDEC standard designs, reliable for everyday commercial workloads without paying for industrial/automotive grade you don't need.
