01

USB flash drives designed for reliable data storage and transfer across a wide range of personal, professional, and enterprise applications. Available in multiple capacities and form factors to suit any use case.

ABOUT THE PROFESSIONAL SERIES

The Centon Professional Series is built around a controlled specification rather than a fixed bill of materials. This lets us source top-quality components from multiple suppliers to meet your spec at the best possible price, without compromising quality. For system integrators and builders, it delivers dependable, lifecycle-stable products that balance performance, availability, and cost. JEDEC standard designs, reliable for everyday commercial workloads without paying for industrial/automotive grade you don't need.
